

ELITE SHOWROOM

BY ELITE STONE

Laying down the foundation for her luxurious stone company in 2000 in Rome, Tetyana Kovalenko has since built a platform from which to provide clients with design, processing techniques and the latest trends regarding luxurious surfaces like marble, onyx and quartzites. Most recently, Elite Stone saw the opening of its atelier, a 300-square meter showroom in Verona, which highlights the use of the natural materials. Spread across two levels, the new space provides elegantly designed spaces that display the beauty and skill of the company's services. Kovalenko has also just launched a range of furnishing accessories, which features a high-tech system that brings a touch of light to the stone.
